POPULAR TROPICO GIRL TO WED

Mr. and Mrs. McNaughton Barnes, of 1316 Walnut Street, have announced the engagement of their daughter, Miss Lucile Barnes, to Mr. R. Osborne Meighan, of Pittsburgh.

The wedding, which is to be a quiet one, only the family and relatives attending, is to take place August 30th, 1919, at four o'clock. Following the marriage ceremony the bride and groom will leave for a two weeks' trip. Upon their return they expect to make their home in Glendale.

FIVE TOWNS ASK ANNEXATION WITH LOS ANGELES

By a vote of more than 3 to 1 the residents of La Crescenta, Monte Vista, Sunland, Tejunga and La Canada last night voted to call an election to vote on the question of annexing to Los Angeles. The decision was reached at a meeting held in the La Crescenta schoolhouse, at which A. M. Brown acted as chairman and Truxten T. Dyer as secretary.

It was brought out that owing to light rains last winter there is a great shortage of water in the foothill district and that by annexing to Los Angeles an ample supply of aqueduct water would be available. Also other advantages of joining the city were pointed out by various speakers.

A vote on the question of calling an annexation election stood 90 for and 29 against. A committee was appointed to make a survey of the territory to determine the boundary lines of the territory to be included in the annexation program. Soon as a tentative report is submitted to the Los Angeles board of public works and water department an elec-

tion will be called.

The proposed new addition will contain approximately 6000 acres of the choicest foothill territory in Southern California. It lies between the Devil's Gate on the border of Pasadena and the San Fernando section of the city. If the section is annexed it is said the City of Glendale will be completely surrounded by the City of Los Angeles.

It was reported today that there is a growing sentiment in Glendale to include that city in the election to be called by the district represented at last night's meeting.—L. A. Express July 9 1919.

FIREMEN RECOVERING

The three firemen who were injured in the automobile collision of Thursday of last week are recovering rapidly and consider themselves fortunate to have escaped with no worse injuries. Chief Lankford is already getting about with the help of a cane, though he has a broken rib and a badly bruised hip. George Purrier has a broken ankle that will keep him laid up for a while, and Ed Fairfield was hurt considerably worse than either of the others, suffering some broken ribs and a broken collar bone.

CHARLES W. BURKET DEAD

Charles W. Burket, of 520 East Harvard Street, was found dead by one of his neighbors at about 2:00 o'clock in the afternoon of Wednesday of this week. Mr. Burket has been in poor health for some time. The neighbor immediately called in doctors but to no avail.

Funeral services were held in the

parlors of the Pulliam Undertaking Co. Friday morning. Interment was at Forest Lawn Cemetery.

PRESBYTERIAN PICNIC

The Church and Sunday School of the Tropico Presbyterian Church will picnic at Brookside Park next Tuesday. Conveyances will be provided, which will leave the church at 9:30.

SCHOOL BOND ELECTION

The Trustees of the Glendale City School District, of which Tropico is now a part, have called an election on Thursday, July 24th, for the purpose of voting on a proposition of issuing bonds to the amount of \$100,000.00 building for the Broadway School, additional ground and erecting a new building for the Broadway School, though as given in a recent issue of this paper, the other city schools are included to a small extent.

There will be but three voting precincts; one at the Acacia Avenue School at which Joseph McPheeters is named as inspector and Mary J. Rich and Dora Howe as Judges, with the other voting places at the Central Avenue School and the Wilson (3rd Street) Avenue School. Tropico people will of course vote at the Acacia Street School and we hope that a full vote will be cast.

While we do not believe in being niggardly when it comes to educational work, yet we do not believe in reckless expenditures and it is an acknowledged fact that the main cause of our heavy taxation in this locality is not so much from our city and county government expenses, as is from our extreme liberality along this line.

Not everybody seems to have realized that, with the prohibition law actually in force, the old question of temperance assumes a wholly new form. Bishop Lawrence, of Massachusetts, stated it most vividly, the other day, in his convention address. Adverting to the fearfulness of conservative people in the face of bolshevism, and their insistence that law must be obeyed, he said, "Some of us who are not Bolshevists will soon have a chance to test that out. Soon the execution of war prohibition and later of constitutional prohibition will begin. The question will then be not that of temperance but of loyalty. The point is, are we going to obey the laws or not? Are we going consciously to evade the law or not? No man who breaks the law in order to have a drink can complain if a brick goes through his window some riotous evening."—Christian Science Monitor.

PROCEEDINGS OF BOARD OF TRUSTEES

The regular meeting of the Board of Trustees was held on Thursday night, all members being present. The minutes were read and approved.

A letter was read from Clarence Edwards thanking the Trustees for the memorial of appreciation of the services that have been rendered by the young men of Glendale in the great war which he had received.

An application was read from A. S. Formoe for a permit to conduct a one cow dairy at 1227 Boynton Ave., which on motion of Trustee Henry was granted.

An application was presented from James J. Jeffries for permit to drive motor truck over the streets of the City of Glendale on regular milk de-

livery between Burbank and Los Angeles. On motion of Trustee Shaw it was ordered that a hearing on the application be set for 8 o'clock P. M. July 17, 1919, in the Council Chamber.

The Clerk, having received letters of inquiry from persons living in the annexed territory who had been subject to double assessments inquiring as to rebate, reported the fact to the Board. The Chairman stated that the Trustees are considering the best method of making these refunds in order to be within the legal requirements, but no decision has yet been arrived at.

The application of L. Lombardo for permit to operate motor truck, service over the streets of the City set for hearing on this date was taken up and on motion Trustee Henry the permit was granted for the term of one year from date, subject to any regulations and requirements that the City of Glendale may issue.

An application received from C. C. Gingery for permit to conduct a jitney business, which was, upon motion, referred to the City Manager to report upon at the next regular meeting.

A communication was read from City Marshal J. P. Lampert, recommending for appointment on the Police Force, Sam W. Reid and J. T. Alexander. In this connection, Trustee Shaw presented a resolution, which on his motion adopted, appointing the two men on the Police Force.

It was ordered that at this time the bids received in accordance with advertisement, for the purchase of certain city property be opened, read, and publically declared. The bid of G. J. Fanning, offering to purchase the house on Stanley Avenue for the sum of \$455.00 was opened, read and publically declared. The bid was accompanied by a check for the sum mentioned, and on motion the bid was accepted all voting aye.

Reports were received from the Treasurer, Tax Collector and City Recorder.

The City Manager presented a written communication to the Board proposing for its consideration the adoption of an ordinance providing for establishment of certain funds. On motion the matter was referred to the Committee of the Whole.

The City Manager made a report as to conditions on West Broadway in connection with the City's efforts to furnish the people of that section with an adequate water supply. He stated that it seemed to be impossible to secure the consent of all of the owners of the water pipe on that street for the delivery of water, and it was recommended as a temporary expedient that a section of two inch screw pipe be laid for the purpose of providing better supply of water to the residents of that section than they can now secure. On motion the City Manager was authorized to have the temporary pipe as recommended by him at an expenditure of not more than \$350.00 all voting aye.

The City Manager reported that a number of requests had been made during the past year for the establishment of a small waiting station at the intersection of San Fernando Road and Brand Blvd., and recommended that the station now located at the southwest corner of Colorado Blvd. and Brand Blvd. be removed to the location first mentioned, to be placed either on the railroad right of way, if such location is acceptable to the railroad company, or in the parking or on private property on the west side of Brand Blvd., north of San Fernando Road, provided that the Pacific Electric Company will pay a portion of the costs. On motion, the recommendation of the City Manager was adopted, and it was ordered that action be taken in accordance therewith.

The City Attorney, having prepared

an ordinance ordering the laying out and opening of Orange Street, the same was presented to the Board of Trustees by Trustee Shaw, read and laid over for one week.

The City Manager presented a deed for the right of way for pole line, signed by George Hanna, which, on motion, was ordered to be accepted and recorded.

The City Manager presented a contract prepared to be entered into with W. S. Althouse as Consulting Engineer; action deferred.

On motion of Trustee Shaw, the City Attorney was directed to order from the Title Company the list of property owners involved in the opening and widening proceedings on Orange Street.

Fire Chief Langford presented to

the Board a written report in regard to the accident which occurred on July 3rd at the junction of Central Ave. and Los Feliz Road.

On motion of Trustee Henry, Fire Chief Langford was instructed to have repairs made to the city automobile damaged by the accident of July 3rd, at a cost of \$245.00, in accordance with the bid of the Western Mechanical Works, all voting aye.

The City Clerk was granted a vacation of one week beginning July 14. Adjourned.

SCHOOLS STILL MAINTAINED

United States Shipping Board Prepares Officers for Merchant Marine

An impression seems to have

gained ground that the free schools maintained by the U. S. Shipping Board to train officers for the Merchant Marine have ended their sessions.

This is not the fact. The schools are still maintained and there is greater need at the present moment for the officers they turn out than there was even during the war.

It is expected that not less than 1500 new ships will be commissioned in the Merchant Marine this year, and it is the task of the U. S. Shipping Board Recruiting Service to provide them with properly trained officers, as well as with crews.

Men with seagoing, engineering or mechanical experience are wanted by the hundreds to attend the free officers' training schools of the Shipping Board. There are 26 of these schools, with a total attendance at present of 900 men. New classes are formed in the engineering schools every four weeks, and in the navigation schools every six weeks, so that 900 new students are wanted for the schools every six weeks at the outside. Every one of these students who gets his license is wanted later as an officer in the Merchant Marine.

The qualifications admitting a seaman to a Shipping Board Navigation school are two years' deck experience at sea (or in the case of high school graduates, one year) or equivalent service on lake, bay or sound, a somewhat longer experience on the latter waters being necessary.

Any practical seaman, with seagoing sense, who can read and write English and knows the simple rules of arithmetic, can learn navigation as it is taught at the Shipping Board Schools. Only the latest methods

are employed, and the instruction is by highly skilled teachers.

On graduation, the sailor-student, having learned how to determine a ship's position at sea by observation of heavenly bodies, the details of dead reckoning, and other "wrinkles" of modern navigation, is qualified to take examinations for a Third Mate's license at least, and some can pass for a Second Mate's.

The man who qualifies as a Third Mate is eligible for a job in the Merchant Marine at the going wages for that rating, which average, for the five classes of ships in the Merchant service, \$156.25 a month. If he becomes a Second Mate, his pay will be higher, the average for the five classes being \$175 a month. Board and quarters are free to all Merchant Marine officers.

Men with mechanical or engineering experience may enter the Shipping Board free engineering courses, if they come under any of the following heads as to experience:

Three years as fireman on ocean or coastwise steam vessel, or two years as oiler or watertender (or combined service of two years in these positions), or

Six months as chief or assistant engineer on lake, bay or sound steamer, or

One year as chief or assistant, river

steamer, or

One year as locomotive or stationary engineer (with sea service to be specified, which may be obtained after finishing school course), or

Graduation from engineering class of nautical schoolship, or

Graduation in mechanical engineering from a technical school (with sea service to be specified), or

One year in charge of stationary plant of not less than 1,000 horse power, or

Three years as apprentice to machinist's trade (with sea service to be specified), or

Graduation from U. S. Navy intensive training course, with Ensign's commission, and four months at sea

as Junior Engineer officer. Recommendation of superiors necessary.

Men qualified by sea experience can get a Third Assistant Engineer's License after a month's course at a Shipping Board engineering school. Those lacking sea experience, but otherwise qualified, will be sent to sea as Cadet Officers while gaining the necessary sea experience to qualify for service as a Third Assistant Engineer.

The pay for the latter rating averages, on five classes of ships, \$156.25 a month, and for a Second Assistant, the next grade higher, \$175 a month.

The U. S. Shipping Board schools in this section are: Navigation, San Francisco; Engineering, Berkeley.

Don't Tease Child.

Teasing has ruined the disposition of many a child. The parents are not likely to be guilty of such conduct, but older children in the family, or some other relative, may make the child's life utterly miserable by constant teasing. A thoughtless adult, intending to be playful, will keep a child struggling for some object, almost allowing him to get it over and over again, only to thwart the child's purpose, and so causing a wearing irritation.

AT THE PALACE GRAND

One of the best comedy programs ever seen is offered for today at the Palace Grand. Wallace Reid appears in his latest comedy romance, "You're Fired," which is described as "some picture." It is full of thrills, comedy, and romance, and is said to be better even than his last previous big success, "The Roaring Road." Added to this is Mack Sennett's latest two-reel whirlwind, a stunt comedy, "No

Mother to Guide Him." This scream features the famous comedians, Ben Turpin, Charles Lynn and Myrtle Lind. Bray cartoons and pictograph

will be shown also. Children's and adults' matinee at 2:30. Evening shows at 7:00 and 9:00.

Tomorrow, Sunday, July 13, will be presented Leroy Scott's sensational novel of "big pleasure" in New York, "Mary Regan." This great picture features Anita Stewart and is a Lois Weber attraction. Matinee begins at 2:30, evening shows at 7:00 and 9:00.

A big Arcraft production will be presented Monday. This is Elsie Ferguson in "The Marriage Price," a drama of life, so full of action and heart interest that you will be held to the final scene. She was a poor girl and she married a millionaire. Each loved the other, but—. On the same program is Gaumont latest world news, and a clever comedy, "Taking Things Easy." Matinee at 2:30. Evening shows at 7:15 and 9:00 o'clock.

On Tuesday, July 15th, Evelyn Nesbit will appear in "Woman, Woman!" This is the tale of a woman's temptations, and a picturization of the shadows of the Great White Way. At the same show you will see Harold Lloyd's latest comic, "The Marathon," and a Bruce wonder mountain picture, "A Tale of the Tall Timbers." Matinee at 2:30, evening shows at 7:15 and 9:00.

The great screen comedienne, Constance Tamm, is scheduled for Wednesday in her latest farce comedy, "The Veiled Adventure." This is a story of love, adventure, and

thrills. Pathe News and a new comedy will be shown also. Matinee at 2:30. Evening shows at 7:15 and 9:00 o'clock.

A "picture that will take you off your seat" is promised for Thursday, when Charles Ray comes in the masterpiece of his screen career, "The Busher." This picture has even more wholesome entertainment in it than "Greased Lightning," Ray's last big success. The pitcher's heart wasn't in the game at first, but when he saw the girl's appealing face in the grandstand he became a wonder. On the same program is a clever two-reel comedy, "Mary Moves In." Matinee at 2:30. Evening shows at 7:15 and 9:00 o'clock.

A Broadway hit is coming Friday. This is Lila Lee in "Rustling a Bride." It is a tale of the desert, with plenty of thrills. When she first saw him he had a rope around his neck. On the same program is a Burton Holmes travel picture and a Mutt and Jeff cartoon. Matinee at 2:30. Evening shows at 7:15 and 9:00.

"True Heart Susie," the latest big D. W. Griffith production, is coming Saturday of next week.

Mr. Business Man

WHY not make your appeal for patronage through the columns of this newspaper? With every issue it carries its message into the homes of all the best people of this community. Seashore —  — Mountains

Vacation Time

is here again and many of us
the planning to spend a goodly
portion of that time at one of
are numerous seaside resorts,
while others will prefer the
mountains—

In either case the PACIFIC
ELECTRIC RAILWAY offers
unexcelled service to seaside re-
sorts and direct connections to
many mountain camps.

SEASIDE RESORTS
